

Baja
2100
by CHINOOK

2000 Chinook 2100 XL Baja 4x4 motorhome
Original MSRP **Base Price before Options** \$120K - \$150K
As factory equipped \$210,000
Class B+ (but taxed as a Class C !!!)

Floor Plan:

"The Sports Car of Motorhomes"

This Rare and Exclusive 4x4 motorhome features everything you would find in a Class A motorhome, but in a more compact size that is only about 1 & 1/2 feet longer than a standard full size Ford, Dodge, or Chevrolet van. With a robust V10 gas engine & 4 speed auto trans with overdrive, it easily accelerates in traffic, parks in any store parking stall, takes hills and mountains passes like a car, but sleeps 4 comfortably. And with a 2 speed transfer case behind the Dana 60 front axle, it goes where ordinary motorhomes fear to tread! Logging roads to remote lakes, sure thing. Rocky riverbeds, no sweat. But just in case, it also features a 12,000 lb Warn front winch. With wireless remote.

Other features include, a 2 inch trailer hitch with a towing capacity of 5,000 lbs. So take your boat with you when you go! Convection microwave, 120vac/propane/12vdc refrigerator & freezer, 4kw onboard Onan generator, 250 amp hours of dry cell deep cycle batteries, 350 watts of solar panels on the roof, 6 way adjustable heated seats, electric remote & heated mirrors, and way too much more to list. Ready for all your adventures. Just add gas.

A Trail Winds Chinook Baja 4x4 took 2nd place in the Dalton category of the, ESPN 2000 Alcan 5000 Winter Rally at speeds of up to 80 mph, in -50F weather. <http://alcan5000.com/00results.htm>

Items replaced in 2016 @ 55,000 miles:

All steering components & alignment – including a Redhead steering gear box

- the entire steering system was professionally rebuilt under the direction of the owner of Whitefeather 4x4 Conversions of Red Bluff, California. The owner, Craig Jackson, was formerly an employee of Salem Kroger 4x4 Conversions. The company which originally built all of the 4x4 conversions for Trail Wagons of Yakima, Washington.
- Craig personally test drove each and every Chinook Baja 4x4 before it left to return to the Trail Wagons factory.
- A Trail Wagons Chinook Baja 4x4 placed 2nd place in the Dalton category of the, **ESPN 2000 Alcan 5000 Winter Rally**, at speeds of up to 80 mph, in -50F weather.
<http://alcan5000.com/00results.htm>
- Robett DeNiro and Dennis Weaver are owners of Chinook Baja 4x4s
